INTRODUCTION

Department of Civil Engineering of Haldia Institute of Technology, Haldia is organizing a National Conference on Advancement in Civil Engineering Practice and Research (ACEPR) during 5th-6th April, 2018. We look forward to your participation and support in making this conference a grand success.

HALDIA INSTITUTE OF TECHNOLOGY (HIT)

Haldia Institute of Technology (An Institute of ICARE, Haldia, Approved by AICTE, Affiliated to MAKAUT, WB) began its journey in the year 1996. It is the first private and accredited academic institution catering technical education in West Bengal. The Institute is situated at Haldia – an industrial hub in Eastern India. Since inception, Haldia Institute of Technology is dedicated to the objectives of creating highly trained professional manpower in various disciplines of Engineering, Technology and Social Science. The Institute is also dedicated to the contribution of higher scientific research in Engineering & Technology as well as in Applied & Social Sciences. Haldia Institute of Technology is about 125 km south of Kolkata and is well connected by rail and road with important metro cities of India. The distance from airport(an international airport) to HIT Haldia is about 130km. the climate at Haldia during January is very pleasant and the temperature generally varies from 25 to 30°C.

DEPARTMENT OF CIVIL ENGINEERING

Dept. of Civil Engineering in HIT was established in 2005. The dept. offers B.Tech. program to produce competent engineers who can contribute effectively to the advancement of civil engineering practice and research keeping in view of the societal needs. Distinguished alumni of this dept. are now well placed in both academia and industry. Faculties of this dept. have engaged themselves in various funded research and consultancy activities. The dept. possesses a state-of-the-art facility for smooth execution of ongoing doctoral and post-doctoral research activities.

OBJECTIVES

The conference will deliberate on brief overview of Advancement in Civil Engineering Practice and Research and give an opportunity to meet experts and exchange views on this topic. The main purpose of the conference is to combine research and practice in different areas of civil engineering keeping the industry-academia relationship in mind. The conference welcomes contemporary theoretical and applied research, reviews of the specific domain that address prompt communication to the audience.

CALL FOR PAPERS

The conference invites research and review papers on the following topics.

- ✦ Structural Engineering
- ✦ Geotechnical and Geo-Environmental Engineering
- ✦ Transportation Engineering
- ✦ Geo-Informatics (GIS and Remote sensing)
- ✦ Hydrology and Water Resources Engineering
- ✦ Environmental Science and Engineering
- ✦ Recent Industrial Innovation in Civil Engineering
